

## **On the Acquisition Trail for Starfish Restaurants**

Trafford Oliver is delighted to advise that it has been retained by Starfish Restaurants to acquire A5 hot food takeaway retail units for their ongoing expansion.

Starfish Restaurants was established in 1976 and, having opened dozens of restaurants since then, has now become one of the country's leading fish and chip shop operators.

Charles Trafford said:

'I have dealt with Starfish Restaurants on both sides of the fence for a number of years now, have always found them extremely straightforward to deal with and we are delighted to have been retained to aid their expansion. In 2013 we already have 7 units under offer or in solicitors' hands and my clients need to complete a minimum of 6 further acquisitions before the end of the year, with the roll out continuing into 2014 and beyond.

'The area of search is basically anywhere within 150 miles of Birmingham, and we are looking for highly prominent units of 750 – 1,500 sq ft in neighbourhood centres; densely populated areas; strong towns & suburbs; close or adjacent to convenience stores and on arterial routes. Further information on what we are looking for can be found by clicking [here](#)

'This is a genuine and urgent requirement and we can guarantee a speedy decision making process.

'In addition, my client also has substantial funds available for roadside retail development sites throughout the area of search'.

Trafford Oliver would be delighted to hear from anyone with any suitable opportunities.
